

# This is our last meeting!

# Major action items

- CalVal plan to finalise before Oct 2015
- Preliminary design for additional downlink capabilities to be confirmed before Oct 2015
- Minimum set of AirSWOT data processed before Oct 2015

# Other action items

- Contribute to OBP ATBD evaluations – comments to be sent quickly to ADT leads
- Inputs to Post-launch campaigns

# Thanks to all the SDT members involved in ...

- Algorithm Development Team
- CalVal Team
- Applications Team
- Contributing to AirSWOT campaigns

All of the Working Groups during 3 years (Orbits, HR Mask, Discharge, Tides, ...)

- And many exciting science results ...

A key aspect of current and future success of the mission is to continue and even reinforce the cooperation between the French and US colleagues (WG have contributed to this), between hydro and ocean community, and last but not least between the Project and Science team.

- Thanks also to the meeting organisers from CNES !
- Alice Andral, Danielle Barrère, Emilie Bronner, Selma Cherchali
